

AN ACOUSTICAL FINISH CASE STUDY FROM INTERNATIONAL CELLULOSE

<b>PROJECT</b>	St. Joan of Arc Sanctuary St. Louis, MO
<b>ACOUSTICS</b>	Jim Holtrop of AcoustiControl, LLC, 1709 Washington Ave, Loft 300 St. Louis, MO 63103
<b>DETAILS</b>	¾" SonaKrete 1,800 Sq. Ft Terracotta
<b>DESIGNERS</b>	Julie Abner Interiors Jim Konrad, Architect St. Louis, MO

As a result of unsightly roof leak damage to the St Joan of Arc sanctuary ceiling, the 12" acoustic tiles had to be removed and the substrate plaster repaired. Jim Holtrop of AcoustiControl, LLC recommended the tiles be replaced with a ¾", NRC .75 application of SonaKrete to 1,800 Sq Ft of ceiling surfaces. SonaKrete both performed at a specific acoustical level and greatly improved the aesthetics.

Maintaining the original look was very important. Architect Jim Konrad and interior designer Julie Abner chose a terracotta custom integral color SonaKrete. *"SonaKrete was the perfect product to provide an attractive surface and the acoustic performance that we needed for clarity of both the spoken word and music. Using the custom integral color greatly enhanced the aesthetics of the space. We have received many positive complements from fellow parishioners about our renovation."*

SonaKrete, being manufactured from recycled paper, contributes to LEED credits. When it comes to durability and aesthetics, SonaKrete is in a league all its own. Best of all, SonaKrete provides for an easier and faster application. This results in SonaKrete being more cost effective than traditional sprayed acoustic plaster systems.

SonaKrete is ideal for any architectural space requiring both acoustic performance and beautiful aesthetics. SonaKrete is available in Standard White and Arctic White. Custom matched integral colors are also available. SonaKrete is ideal for worship centers, museums, libraries, offices, lobbies, boardrooms, correctional facilities, and wherever performance, appearance, and durability call for only the very best. Contact International Cellulose at [1-877-790-9367](tel:1-877-790-9367) for samples and complete technical data or visit our website at [www.sonakrete.com](http://www.sonakrete.com). With SonaKrete, quiet never looked so good. Would you like to learn more? ICC even offers architects an AIA/CES program on the subject of Spray-Applied Acoustic Finishes.
